

October 2018

1,000th Young Person Screened by the Jamie Loncaster Memorial Fund.

It's great to report that during the recent two-day weekend heart screening event held at South Hunsley School, the fund saw its **1,000th young person** screened in Jamie's memory.

Local teenager Chloe Waugh, a pupil of South Hunsley Sixth Form College, was pleased to be able to join Graham & Jenny for a photograph after her heart screening to mark this milestone moment.

It was especially poignant, because Chloe was one of Jamie's best friends, both having started at Swanland Primary School back in 2006 and often walking to and from school together.

Chloe's ECG was performed by Louise Darbyshire from **Cardiac Risk in the Young** and subsequently reviewed by the CRY Cardiologist and Research Fellow in attendance, Gemma Parry-Williams.

The next scheduled screening event by Jamie's Fund is to be held in April 2019 and is open to anyone aged 14-35. It will be held at South Hunsley School and Sixth Form College in Melton.
