

9th Heart Screening Event – April 2022

Once again we welcomed back **Cardiac Risk in the Young** to South Hunsley School on 12th & 13th April 2022 for young people to benefit from a free heart screening. South Hunsley School again offered us free use of “The Space” for the full two days.

The easing of Covid restrictions had allowed CRY to pre-book a total of 201 young people -almost back to pre-pandemic levels. Sadly though, we had 18 people fail to attend and 2 very apologetically cancelling due to unforeseen circumstances. Thankfully, we were able to fill some of the places with ‘walk-ins’ on the day.

In total, the CRY team screened 186 young people over the two days, 6 had an additional ultrasound/echo of the heart and 3 were referred for further consultation.

Nationwide CRY statistics from 20 years of screening show that 1:100 people screened will be found to have an irregularity with their heart and 1:300 will have a potentially life-changing condition.

The next event will be at South Hunsley School at the end of **October 2022** and booking will hopefully be released during mid-September 2022 at www.testmyheart.org
